

Wildlife. Up Close.

Reptile Encounters is a voice for wildlife, creating memorable experiences that inspire students to care for nature. Our up close wildlife experiences create lasting memories and inspire students to take an interest in the natural world.

Our goal is to create a generation of better humans! We give back through our partnership with BIGI (Buy1Give1). BIGI supports projects aligned with the United Nations Sustainable Development Goals and for every school incursion, we create a positive impact.

Josh Cox, Director

WILD SCHOOL EVENTS

We'll bring animals to your school fete, festival, or gathering for attendees and students to connect with wildlife. Ideal for National Science Week!

BIRTHDAY PARTIES

Celebrate your next birthday with us and learn about our amazing animals. Guests can see them up close and possibly even touch them. We can come to you or host at our headquarters in Burwood.

CORPORATE AND COMMUNITY EVENTS

We promote love and protection for wildlife by attending various events like festivals, parties, launches, shows, markets, etc. We can have a stage show, interactive display, or roam and interact with attendees. We customize each event to connect people with nature and create lasting memories.

REPTILE ENCOUNTERS

WILD PRESCHOOL INCURSIONS

Fun, friendly and hands-on incursions for preschool kids!

CROCODILES • TURTLES •

• INSECTS • LIZARDS • BIRDS • CROCODILES • TURTLES • MARSUPIALS • INSECTS • LIZARDS •

AUSTRALIAN REPTILES

Get up close with snakes, turtles, and lizards. Kids will be captivated by the amazing features and personalities of our reptiles in this interactive experience. Learn about the weird and wonderful characteristics of our Australian reptiles. If you're unsure about which incursion to book, and we haven't been to see you before, this is the perfect place to start.

INSECTS AND MINIBEASTS

Does your class know the difference between a spider and an insect? They will learn all about the unique and fascinating creatures that make up the most abundant animal group in the world - the invertebrates! Discover the importance of insects and the wide range of species like spiders, millipedes, cockroaches, hermit crabs and more!

LOCAL SPECIES

What better way to connect kids to nature than to help them explore their own backyard! Discover the many different species that call Victoria home, from eastern blue-tongue lizards, bearded dragons and eastern long-necked turtles, to mammals and birds. You'll be amazed by the biodiversity we can find right on our doorstep but never get the chance to meet up close, until now.

MEET THE RAINBOW SERPENT

Aboriginal people, the traditional custodians of the land we live on in Australia, have cared for this country for over 100,000 years. Your class will discover some of the animals that inspired Dreamtime stories, learn about how they live in balance with nature, and the deep respect they hold for the animals they depend upon for survival. A truly inspiring experience.

FEATHERS, FUR AND SCALES

What does the fur of a possum or the shell of a turtle feel like? Your class will get up-close with one of our hand-raised marsupials, a cheeky feathered friend, and an awesome mix of Australian reptiles. Find out what they eat, where they live, how they survive in their natural habitats. There's sure to be a favourite animal for every kid in this immersive incursion.

INCURSION RESOURCE PACKAGE

Developed by teachers for teachers, our incursion resource packs are carefully crafted to provide students with an enriched experience while also supporting your teaching efforts. Each pack is specific for the incursion you booked. Find out more about each pack on our website or contact us to discuss options for enhancing the experience for your students.
