

Week 6 - Invertebrate Adventures

Since you have worked so hard the last 5 weeks-we thought it is time for you to let your brain relax and do a fun creative activity. Here is you only task for the week:

Task

Now that you have had some time with your Stick Insects, you have gotten to know them a little bit better.

We would like you to write/draw/film a short story about them, turning them into superheroes or villains. You can do this in any format you like, for instance:

- Illustrated comic strips
- Slideshow story
- Video
- Written story

When writing a story, it is important to plan first. The next page is set up for this purpose.

The first step is to think about your characters, which will be based on the personality of your own Stickies. Are they friendly, sleepy, angry, naughty? Use any personality traits to turn them into a character.

The second step involves defining the problem? Every story has a problem or a conflict. What will yours be and how will your insects resolve it? (Or make it worse if they are the villain...)

Thirdly, you will be deciding where your story takes place- the setting. Is this set in our universe or another?

Lastly, you will decide how you will present your story.

Happy storytelling and don't forget to share it in the Branching Out Facebook Group!

Pathways – Branching out!
